

Annales Mathematicae Silesianae

30 (2016)

Wydawnictwo Uniwersytetu Śląskiego
Katowice 2016

„Annales Mathematicae Silesianae” is published by the University of Silesia. The journal publishes original research papers in pure and applied mathematics.

EDITORIAL BOARD

EDITOR-IN-CHIEF: Maciej Sablik (Poland)

EDITORS: Aleksander Błaszczyk (Poland)

Roman Ger (Poland)

Moshe Goldberg (Israel)

István Juhász (Hungary)

Franz-Viktor Kuhlmann (Poland)

Michael C. Mackey (Canada)

Jean Mawhin (Belgium)

Zsolt Páles (Hungary)

Ludwig Reich (Austria)

Hans Schoutens (USA)

Łukasz Stettner (Poland)

MANAGING EDITOR: Justyna Sikorska (Poland)

TECHNICAL EDITOR: Dariusz Sokołowski (Poland)

EDITORIAL OFFICE

Contents

JOSE MARIA ALMIRA: On Popoviciu-Ionescu functional equation	5
ALFRED CZOGAŁA, BEATA ROTHKEGEL, ANDRZEJ ŚLADEK: Wild primes of a higher degree self-equivalence of a number field	17
SEVER S. DRAGOMIR: Reverse Jensen's type trace inequalities for convex functions of selfadjoint operators in Hilbert spaces	39
JOANNA KUBIENIEC: Random dynamical systems with jumps and with a function type intensity	63
POOM KUMAM, MUHAMMAD SARWAR, MIAN BAHADUR ZADA: Fixed point results satisfying rational type contractive conditions in complex valued metric spaces	89
ZENON MOSZNER: On the normal stability of functional equations . . .	111
PAWEŁ PŁONKA: Strong unique ergodicity of random dynamical systems on Polish spaces	129
HANS SCHOUTENS: The motivic Igusa zeta series of some hypersurfaces non-degenerated with respect to their Newton polyhedron	143
BARBARA SOBEK: Alienation of the Jensen, Cauchy and d'Alembert equations	181
TOMASZ STYPUŁA, PAWEŁ WÓJCIK: Characterizations of rotundity and smoothness by approximate orthogonalities	193
DAMIAN WIŚNIEWSKI: The behaviour of weak solutions of boundary value problems for linear elliptic second order equations in unbounded cone-like domains	203
MATEUSZ WORONOWICZ: A note on additive groups of some specific associative rings	219
Report of Meeting. The Sixteenth Debrecen-Katowice Winter Seminar Hernádvecse (Hungary), January 27–30, 2016	231

Information for Authors

Submission of a manuscript implies that the work described has not been published before, that it is not under consideration for publication elsewhere, and that it will not be published elsewhere unless it has been rejected by the editors of “Annales Mathematicae Silesianae”. Moreover, the article contains no unlawful statements and it does not infringe the rights of others.

All authors contribute to the same extent to the present article, and no ghostwriting or guest authorship practices occur. Ghostwriting and guest authorship are indications of scientific dishonesty and all cases will be exposed and adequate institutions will be informed.

Manuscript should be written in English and prepared in L^AT_EX. Its pdf file should be submitted electronically as an e-mail attachment to:

annales@math.us.edu.pl

An abstract of not more than 15 lines should describe the main results of the paper. Included into the footnotes of the first page should be the Mathematics Subject Classification (2010). Key words and phrases should follow. In the case of a long title, it is necessary to indicate an abbreviated title which will be used as a running head (up to 60 characters including spaces). Figures should be prepared in a form suitable for direct reproduction; EPS or PNG files will be most helpful. References should be numbered and arranged in alphabetical order, or in the case of the same author, chronologically. The style and abbreviations should follow the “Mathematical Reviews” (MathSciNet). Authors affiliations, including complete postal address and e-mail address, should be given at the end of the manuscript.

On acceptance of the manuscript Authors will be asked to send the final version of the paper as the source L^AT_EX file, original files of all illustrations and pdf file to: annales@math.us.edu.pl.
