

„Annales Mathematicae Silesianae” is published
by the Silesian University. The journal
publishes original research papers in pure and
applied mathematics.

Wydanie I. Nakład: 200 + 50 egz. + 25 nadb. Ark.
druk. 6,5. Ark. wyd. 7,0. Przekazano do lamania we
wrześniu 2006 r. Podpisano do druku w grudniu
2006 r. Papier offset. kl. III 80 g.

Cena 11 zł

Druk: EXPOL, P. Rybiński, J. Dąbek, Spółka Jawna
ul. Brzeska 4, 87-800 Włocławek

Contents

MACIEJ J. PRZYBYŁA: The d'Alembert and Lobachevski difference operators in \mathcal{F}_λ spaces	7
LANZHE LIU: The continuity of multilinear integral Operators on Morrey spaces	19
FRANTIŠEK MARKO: Towards Ankeny–Artin–Chowla type congruence modulo p^3	31
ZDZISŁAW NANIEWICZ, MAGDALENA NOCKOWSKA: On variational approach to economic equilibrium — type problem	57
HONG XU, JIASHENG ZENG, LANZHE LIU: Weighted Sharp Boundedness for Multilinear Commutators	73
Report of Meeting. The Sixth Debrecen–Katowice Winter Seminar on Functional Equations and Inequalities, February 1–4, 2006, Berekfürdő, Hungary	87

ISSN 0208-6336

ISSN 0860-2107

Information for Authors

Submission of a manuscript implies that the work described has not been published before, that it is not under consideration for publication elsewhere, and that it will not be published elsewhere unless it has been rejected by the editors of "Annales Mathematicae Silesianae".

Manuscript should be written in English and sent in either in hardcopy by regular mail, or electronically via e-mail. In the first case Authors are asked to send their papers in duplicate to the Editorial Office: Instytut Matematyki, Uniwersytet Śliski, Bankowa 14, 40-007 Katowice, Poland, and in the latter case -- to send a pdf file as an e-mail attachment to: annales@math.us.edu.pl

An abstract of not more than 15 lines should describe the main results of the paper. Included into the footnotes of the first page should be the Mathematics Subject Classification (2000). Key words and phrases may follow. It is necessary to indicate an abbreviated title which will be used as a running head (up to 60 characters including spaces). Figures should be prepared in a form suitable for direct reproduction. Sending PS, EPS, PCX files will be most helpful. References should be numbered and arranged in alphabetical order, or in the case of the same author, chronologically. The style and abbreviations should follow the "Mathematical Reviews".

Authors affiliations, including complete postal and e-mail addresses, should be given at the end of the manuscript.

On acceptance of the paper Authors will be asked to send the final version of the paper as the \LaTeX and pdf files to the address: annales@math.us.edu.pl

Recommended font size of manuscripts is 11pt, line length 126 mm, page height 192 mm. The Authors are kindly asked to match their typographical style to that used in the last issue of our journal.

Copies of all manuscripts should be retained by the Authors. In case of several coauthors indicate one Author as the corresponding Author. The Author will obtain one set of proofs for corrections after acceptance of the manuscript.

The indices of "Annales Mathematicae Silesianae" and some more information on our journal are accessible on the homepage:
