## INTRODUCTION

This publication we are proud to present is the effect of the international cooperation between the Department of Commercial Law at the Faculty of Law and Administration of University of Silesia and representatives of foreign university departments of private law. It expands the collective publications “Evolution of Private Law”, “Evolution of Private Law – vol. 2” and “Evolution of Private Law – New Approach” that were published sequentially in 2014, 2015 and 2016. The cooperation resulted also in organizing three international conferences held at the Faculty of Law and Administration in Katowice.

The wide formula of the academic cooperation enables an in-depth research on the new trends in company law, contract law and other areas of the private law. A broad range of authors – academics from Central and Eastern European universities – have made significant contribution to strengthening the comparative law research.

This publication contains legal regulations concerning e.g. simple joint-stock company under Slovak law, Czech regulation on 100 euro limited liability company, remuneration policy in listed companies, concept and meaning of capital share in commercial partnerships, marriage contracts, inheritance contracts amendments of Ukraine civil procedure.

Most of the articles can be useful in the didactic process at law studies. We firmly believe that this publication caters not only to civil law academics' needs, but also legal practitioners. The contribution to the creation of this publication was made by representatives of following Universities: Palacký University in Olomouc (Czech Republic); Pavol Jozef Šafárik University in Košice (Slovakia); Taras Shevchenko National University in Kiev (Ukraine); Vasyl Stefanyk Precarpathian National University in Ivano-Frankivsk (Ukraine); Yaroslav Mudryi University in Kharkiv (Ukraine) and University of Silesia in Katowice (Poland).
